- Benefits:**
- Resilient Hard Wearing
 - Fire Resistant
 - Seamless
 - Elastic & Comfortable
 - Lightweight Ultra Thin
 - Sustainable
 - Solvent Free
 - Good Slip Resistance
 - Easy To Clean
 - Long Lifespan
 - RAL, NCS & Sikkens Colours
 - 40 Year Potential Life

Comfort - Seamless Flexible Flooring

A self-smoothing resilient polyurethane floor system that provides a higher level of comfort underfoot through its elastic finish. A two-tone concrete effect also available.

A seamless polyurethane providing a tough and scratch resistant finish with a warmer, comfortable feel including a UV resistant surface which is also-compatible with underfloor heated screeds and timber substrates.

Extremely Strong: suitable for high usage, wear and scratch-resistant.

Robust Satin: seamless monolithic & hard-wearing with a satin finish.

Durable: possible 40 year life cycle with easy re-coat in-situ.

About Us

Ecoflor Ltd is a market leader in the installation of specialist resin floor finishes for industrial and commercial applications.

Established in 2004 we have built up a reputation across the UK with an established customer base of major Plc's. Ecoflor are approved installers of systems for the biggest names in resin floor manufacturing.

With our own in-house preparation fleet, we undertake projects from design to handover without splitting responsibility.

From our head office in Cardiff and regional offices in Edinburgh and London, and with an experienced, knowledgeable sales team backed by our manufacturer accredited installation teams, you can be sure your floor is in safe hands.
