ECO Traffic ID - Intermediate Car Park Decks

Traffic ID is an high performance polyurethane multi-layer coating solution for intermediate car park decks in both new and refurbishment situations that can accommodate temperature cycling along with vehicle movements and parking. Using the latest polyurethane resin technology the system is elastomeric with an skid resistant, fuel resitant, UV stable wearing surface.

No Odour: suitable for new and existing top deck car park environments.

Economic: using the latest in cost-effective polyurethane resin technology.

Colour Range: available in RAL, Sikkens and NCS - 9000 colours available.

About Us

Ecoflor Ltd is a market leader in the installation of specialist resin floor finishes for industrial and commercial applications.

Established in 2004 we have built up a reputation across the UK with an established customer base of major Plc's. Ecoflor are approved installers of systems for the biggest names in resin floor manufacturing.

With our own in-house preparation fleet, we undertake projects from design to handover without splitting responsibility.

From our head office in Cardiff and regional offices in Edinburgh and London, and with an experienced, knowledgeable sales team backed by our manufacturer accredited installation teams, you can be sure your floor is in safe hands.
